Academic Success, Safety, Climate & Equity Drive Transformation of Discipline Policies

As the far-reaching impact of school discipline policies is increasingly realized by educators, the discussion around how to manage student behavior continues to expand. To improve academic achievement, educators recognize the need to keep struggling students in class while also recognizing the need to minimize disruption for the benefit of all students.

At the same time, new revelations regarding the lingering effects of trauma, poverty and other adverse childhood experiences (ACEs) on behavior prompts even veteran educators to question the appropriateness of traditional discipline methods. And the 20 percent of students who are battling mental and/or emotional challenges often do not respond to, and can be escalated by, confrontational, heavy-handed approaches.

Studies in both the U.S. and Canada have confirmed that exclusionary and zero-tolerance policies continue to be applied unfairly to minorities and students with special needs.

Recently the critical role of school discipline policy has come into increased focus as administrators seek to improve school climate and enhance school safety. Now in its eighth year, the School Discipline Conference provides a forum where educators can gather information on various approaches and philosophies. It assembles internationally recognized experts and speakers and features evidence-based programs as well as promising new approaches developed by practitioners.

The School Discipline Conference is a must-attend gathering for principals, deans, teachers and counselors focused on improving academic performance by applying the most current innovations and research to behavior intervention and classroom management.

The School Discipline Conference Addresses:

- Updated Tools & Strategies for Behavior Interventions
- Do's and Don'ts of Implementing PBIS
- Evidence-Based Insights for New & Experienced Educators
- Keys to Working with Minority Students
- How to Handle Particularly Challenging Students
- Legal Landmines Every Educator Should Understand
- Best Practices for Insuring Equity in Disciplinary Practices
