AT-RISK STUDENTS[™] CONFERENCE

NEW YORK | ORLANDO
LAS VEGAS | NASHVILLE

The At-Risk Students Conference focuses on evidence-based programs and strategies to prevent dropouts and to help students succeed. More than 2.1 million students in the United States and Canada drop out of high school each year – with males, low-income and minority students disproportionately impacted. While the full impact is not yet known, the Covid Crisis has almost certainly caused rates to increase – after years of steady improvement. This conference provides valuable insights for reaching those students who are most vulnerable, and those whom early studies indicate were most negatively affected by the pandemic.

SCHOOL DISCIPLINE™ CONFERENCE

NASHVILLE

The discussion around school discipline can be polarizing. On one hand, advocacy groups and those committed to fairness are rightly disturbed that minority students are often expelled at three to four times the rate of their white peers. On the other hand, teachers and parents are deeply concerned about creating an out-of-control, even unsafe, environment where students can do as they please – without any real concern for consequences. But almost everyone agrees that students need to be in class in order to succeed academically, and that suspensions and expulsions should be as rare as possible. And almost everyone agrees that student and educator safety should be top priority.
